TECHNOLOGY YOUR ATTORNEYS WILL ACTUALLY USE

We created Termi with busy, tech-averse lawyers in mind. We gave it intuitive dashboards, a plain English interface, and real-time responsiveness to ensure it enhances the attorney workflow. Termi integrates with familiar productivity products like Outlook, Teams, and Slack, which minimizes downtime and keeps your professionals efficient. Termi puts the data they need (time entry, billing, WIP, KPIs, etc.) in their hands quickly, accurately, and on-the-go. This lowers administrative costs, streamlines business processes, and, of course, keeps productivity up. The bonus? You'll see improved client satisfaction.
